

23 May 1955

MEMORANDUM FOR: 

STAT

SUBJECT : Attached Second Draft

1. The attached draft is a blend of DCI's own drafting and mine, prepared from the SR and OSI materials, on a line of thought worked out by DCI.

2. As you will see, the thesis is now a pretty ambitious one, and must be weighted with care and stated with all reserve. The last part tails off a little and badly needs ideas and a few more touches of color, if possible drawn from our own stores and not used elsewhere.

3. I will be tied up today, but would appreciate a chance to sit down with you tomorrow, individually or collectively. If your reactions are adverse or even violent to the main thread, let's talk it out. In any case, I think it needs all we can give it.

(Signed) WILLIAM P. BUNDY
